

SPECIAL DIETARY NEEDS

Please be advised that Celebrity Cruises makes every effort to accommodate our guest's dietary requirements wherever possible. Most dietary needs can be catered for such as:

Vegetarian, Gluten free, food allergies, low calorie and Kosher.

VEGETARIAN MEALS are available on all menus in the dining room and a varied selection will also be available in the buffet restaurant on a daily basis.

GLUTEN FREE menus are not provided onboard our ships, however, we prefer to customize our existing menus onboard, which give our guests more freedom of choice whilst still catering to their individual needs.

Any item on our menus can be modified so as to minimize or remove the ingredients that may be harmful. All guests are required to speak to their Head Waiter in the dining room once onboard the ship so that their needs are communicated to the galley and an open line of communication is established among everyone concerned.

Please be aware that guests are allowed to bring their own supply of dry, non-perishable food items onboard, such as biscuits, crisps and energy bars.

Items can not be brought on the ship that may be deemed as potentially hazardous. (These can include items that require refrigeration, freezing, reheating, or storage by the galley).

FOOD ALLERGIES can be catered for however, all guests who have a food allergy must ensure they meet with the Maître D or Head Waiter once onboard the ship to review the menus and identify the items that need to be avoided or modified.

The ship's medical facility will have the necessary medication and equipment needed to treat guests with allergic reactions. However, guests are reminded that any necessary medications need to be kept with them at all times.

Please note: All items prepared for guests with food allergies are handled separate from the main food production.

KOSHER MEALS are available at no extra charge onboard all of our Celebrity ships.

The meals provided are all prepackaged and all orders must be placed in advance of sailing, please see our strict ordering deadlines below:

Our standard meals can also be accommodated to suit a low calorie diet if requested once onboard.

GENERAL INFORMATION

Please be aware that due to the limitations of the Speciality Restaurant galleys, the ships are not able to customize the offerings in these locations.

Anything that is entered into the system past our specified timescale or within two weeks of sailing when a set timescale is not given, will be dependant on the ship's product availability, we will try to accommodate all requests to the best of our ability however, inventory levels and variety will be limited.

Whilst we will do all we can to help cater for our guest's needs, all requests are subject to availability and cannot be guaranteed.

It is the responsibility of the guest to ensure that they highlight any allergies to the ship and that they take all care possible when eating food from any of the dining venues onboard to ensure that items are in accordance with their requirements.
